

## NAME INDEX TO LONG JOHN NEBEL TAPE RECORDINGS

(last update 12/22/2010)

Honorifics and spelling of **names** have been retained as given in the original inventory. As a result, a person may appear under two different names, for example "Smith, Robert (Dr.)" and "Smith, Robert." The researcher is advised to take care in locating all relevant material.

To request a specific recording, cross reference the show and date with the main finding aid, [http://library.syr.edu/digital/guides/n/nebel\\_lj.htm](http://library.syr.edu/digital/guides/n/nebel_lj.htm), to obtain the tape number(s). All three pieces of information (show title, date and tape number) are required for retrieval.

The **dates** given are recording dates. Shows were sometimes aired on different dates, or were repeated at a later date. To determine whether there are other air or repeat dates that apply to a given show, cross reference the show and date with the main finding aid, [http://library.syr.edu/digital/guides/n/nebel\\_lj.htm](http://library.syr.edu/digital/guides/n/nebel_lj.htm)
