CLASSIFIED SUMMARY.

CLASSICAL,	29
§SCIENTIFIC,	22
SELECT,	5

REQUIREMENTS FOR ADMISSION.

Candidates for admission to the Classical Course are required to pass a written examination in the following studies:

1. English Grammar, Geography, and History of the United States.
2. Arithmetic, Algebra to equations of the second degree, and Plane Geometry.

A certificate of the Regents will be regarded as an equivalent to examination in Arithmetic, Geography and Grammar.

3. Harkness' Latin Grammar, Four books of Cæsar's Commentaries, Six books of Virgil's Æneid, Six select orations of Cicero, Sullust's Catiline, Sallust's Jugurthine War or the Eclogues of Virgil, and the First and Second parts of Harkness' Introduction to Latin Composition.
4. *Hadley's Greek Grammar, Three books of Xenophon's Anabasis, and One book of Homer's Iliad.
5. Classical Geography, Greek and Roman Antiquities.

Candidates for the Scientific Course are examined in the requirements marked 1 and 2.

Candidates for an advanced standing are examined in the preparatory studies, and in all those that have been pursued by the class they wish to enter, or in studies that may be deemed equivalent. It is very important that candidates should be thoroughly prepared in the requirements for admission, especially in grammatical and elementary knowledge.

The regular examinations for admission to College take place on the Thursday and Friday immediately preceding COMMENCEMENT, and on Tuesday and Wednesday before the beginning of the Fall Term. Candidates will present themselves on the first of the two days named; they will, however, be examined at such other times as may be appointed, when application shall be made. Satisfactory testimonials of a good moral character will in all cases be required, and students coming from other Colleges must present certificates of regular dismission.

No student can be received for less than one term.

* Instructors are requested to teach their pupils to pronounce Greek, with the Greek accents, and with the so-called Continental sound of the vowels and diphthongs,—for example, give a the sound of a in father, eta that of a in fate, i that of i in machine, ei that of ei in height, oo that of oo in moon, av that of ou in house.

COURSE OF STUDY.

CLASSICAL.

FRESHMAN CLASS.

FIRST TERM.

Latin Grammar,	Harkness.
Latin Composition,	Harkness.
Allen's Selections,	
Greek Grammar,	Hadley.
Homer's Iliad,	Owen.
History of Greece,	Smith.
Algebra,	Robinson's University Ed.

SECOND TERM.

Latin Grammar,	Harkness.
Latin Composition,	Harkness.
Livy,	Lincoln.
Greek Grammar,	Hadley.
Greek Prose Composition,	Arnold.
Felton's Greek Historians,	
History of Greece,	Smith.
Algebra, finished,	Robinson's University Ed.

THIRD TERM.

Latin Prosody,	Harkness.
Horace,	Lincoln.
Greek Prose Composition,	Arnold.
Demosthenes De Corona,	Champlin.
Geometry,	Davies' Legendre.

Weekly Exercises in Hart's Composition and Rhetoric through the year.

SOPHOMORE CLASS.

FIRST TERM.

Greek Prose Composition, finished,	<i>Arnold.</i>
Plato's Apologia and Crito,	<i>Tyler.</i>
Trigonometry,	<i>Davies' Legendre.</i>
Navigation and Surveying,	<i>Davies.</i>
German Grammar,	<i>Whitney.</i>
German Echo,	<i>Worman.</i>

SECOND TERM.

Tacitus,	<i>Tyler.</i>
Analytical Geometry,	<i>Church.</i>
German Grammar,	<i>Whitney.</i>
German Reader,	<i>Whitney.</i>
German Echo,	<i>Worman.</i>

THIRD TERM.

Physiology,	<i>Hooker.</i>
Calculus,	<i>Church.</i>
Rhetoric,	<i>Haven.</i>
German Tragedy,	<i>Goethe or Schiller.</i>

JUNIOR CLASS.

FIRST TERM.

Astronomy,	<i>Norton.</i>
Physics,	<i>Pynchon.</i>
French Grammar,	<i>Magill.</i>
Hebrew Grammar,	<i>Green.</i>

SECOND TERM.

Mechanics,	<i>Peck.</i>
Chemistry,	<i>Roscoe.</i>
Laboratory Practice, optional,	
French Grammar,	<i>Magill.</i>
French Reader,	<i>Magill.</i>
Hebrew,	<i>The Pentateuch.</i>

THIRD TERM.

Acoustics and Optics,	<i>Bartlett.</i>
Plautus,	<i>Harrington.</i>
Oedipus Rex,	<i>Crosby.</i>
Logic,	<i>Bowen.</i>
Fasquelle's Napoleon,	
Hebrew,	<i>The Psalms.</i>

SENIOR CLASS.

FIRST TERM.

Mental Philosophy,	<i>Wayland.</i>
Evidences of Christianity,	<i>Hopkins.</i>
Modern History,	<i>Lord.</i>

SECOND TERM.

Moral Philosophy,	<i>Fairchild.</i>
English Literature,	<i>Collier.</i>
Constitutional Law,	<i>Pomeroy.</i>

THIRD TERM.

Analogy of Religion,	<i>Butler.</i>
Geology,	<i>Dana.</i>
Political Economy,	<i>Perry.</i>

COURSE OF STUDY.

SCIENTIFIC.

FRESHMAN CLASS.

FIRST TERM.

Algebra,	<i>Robinson's University Ed.</i>
Physics,	<i>Pynchon.</i>
German Grammar,	<i>Whitney.</i>
German Echo,	<i>Worman.</i>

SECOND TERM.

Algebra, finished,	<i>Robinson's University Ed.</i>
Chemistry,	<i>Roscoe.</i>
Laboratory Practice optional,	
German Grammar,	<i>Whitney.</i>
German Reader,	<i>Whitney.</i>
German Echo,	<i>Worman.</i>

THIRD TERM.

Geometry,	<i>Davies' Legendre.</i>
Physiology,	<i>Hooker.</i>
Rhetoric,	<i>Haven.</i>
German Tragedy,	<i>Goethe or Schiller.</i>

SOPHOMORE CLASS.

FIRST TERM.

Trigonometry,	<i>Davies' Legendre.</i>
Navigation and Surveying,	<i>Davies.</i>
Modern History,	<i>Lord.</i>
French Grammar,	<i>Magill.</i>

SECOND TERM.

Analytical Geometry,	<i>Church.</i>
English Literature,	<i>Collier.</i>
French Grammar,	<i>Magill.</i>

Hebrew,	<i>The Pentateuch.</i>

THIRD TERM.

Calculus,	<i>Church.</i>
Geology,	<i>Dana.</i>
Logic,	<i>Bowen.</i>
Fasquelle's Napoleon,	
Hebrew,	<i>The Psalms.</i>

JUNIOR CLASS.

Students in this Course are advanced from the Sophomore rank to that of Junior, but prior to the issue of the Catalogue, those who have made up all deficiencies, to the satisfaction of the Faculty, will be admitted to the Senior Class.

SENIOR CLASS.

FIRST TERM.

Astronomy,	<i>Norton.</i>
Evidences of Christianity,	<i>Hopkins.</i>
Mental Philosophy,	<i>Wayland.</i>

SECOND TERM.

Mechanics,	<i>Peck.</i>
Constitutional Law,	<i>Pomeroy.</i>
Moral Philosophy,	<i>Fairchild.</i>

THIRD TERM.

Acoustics and Optics,	<i>Bartlett.</i>
Analogy of Religion,	<i>Butler.</i>
Political Economy,	<i>Perry.</i>

Rhetorical Exercises.

The Senior, Junior and Sophomore Classes deliver original orations before the college.

The Freshman Class have exercises in Declamation and Composition.

Lectures.

In the department of Intellectual and Moral Philosophy, familiar lectures will be given.

The Telescope and other instruments will be used in connection with the study of Astronomy, and the class in Surveying will have exercises in the field.

The Professor of Modern Languages will give familiar lectures on French and German Literature, in connection with the authors read.

The Professor of Ancient Languages will occasionally give familiar lectures upon the Antiquities, History and Literature of the Greeks and Romans.

A course of lectures will be given the first term upon Physics, and the second term upon General Chemistry.

In the school of Agricultural Chemistry lectures will be given in the first and second terms.

Books of Reference.

LATIN AND GREEK.

Zumpt's Latin Grammar,	Goodwin's Greek Moods and Tenses,
Ramshorn's or Doderlein's Latin Synonyms,	Winer's Grammar of the N. T. Diction,
Andrew's Latin Lexicon,	Robinson's N. T. Lexicon,
Liddell's History of Rome,	Smith's History of Greece,
Bojesen's Greek and Roman Antiquities,	Long's or Findlay's Classical Atlas,
Becker's Gallus, and Becker's Charicles,	Smith's Classical Dictionary,
Liddell and Scott's Greek Lexicon.	

FRENCH AND GERMAN.

Spier and Surene's French Pronouncing Dictionary.	Adler's German Dictionary.
---	----------------------------

HEBREW.

Green's Hebrew Grammar, Hahn's Hebrew Bible, Robinson's Gesenius', or Fuerst's Hebrew and Chaldee Lexicon.

Hebrew Course.

On alternate years there will be a class in Hebrew, which language may be taken in place of French. This arrangement affords instruction in Hebrew during the Junior or Senior year.

Select Course.

Students not intending to complete either the Classical or Scientific Course, may recite in such College Classes as their qualifications will permit. They may thus have opportunity to pursue an extended course of English study in connection with such Languages of the College Course as they may select.

They will be expected to attend such general exercises as may be assigned them, and be subject to the general rules of the College.

School of Agricultural Chemistry.

In this School are taught the applications of Chemistry to Agriculture. Instruction is given by means of text books, lectures and experimental practice in the laboratory. Students will derive important advantage from a previous acquaintance with General Chemistry, yet this is not made a requirement for admission.

It will be the constant aim, not only to cultivate in the student habits of critical observation by the actual examination and analysis of soils, fertilizers, and agricultural products in the laboratory, but also to train him in the best methods of conducting independent experiments in the field.

This School is open to all whose previous studies will enable them advantageously to pursue the course, provided that at least three such persons make application for instruction. A fee of three dollars is required to defray the expenses of materials used by the students in the laboratory.

Expenses.

TUITION.

By recent action of the Board of Trustees, TUITION is made FREE.

There is a charge of one dollar for each course of Lectures in Physics and Chemistry, to defray the expenses of the laboratory.

INCIDENTALS.

A charge of five dollars a term is made for incidentals and for the use of the Library.

For every private examination a fee of one dollar will be charged, to be appropriated to the improvement of the Library and Apparatus. Scrip for private examination must be obtained of the Treasurer by the student before he can be examined.

All College bills are payable at the beginning of the Term, and no Degree will be conferred, nor will any student receive a regular dismissal until all College dues are secured.

Discipline.

The government of the College is designed to secure attention to study and correct deportment, not so much by enforcing rigid enactments, as by cultivating in the student a taste for intellectual pursuits. No student who indulges in gaming, intemperance, or other vices, no one who is frequently absent from his room at night, or who habitually neglects his studies, can be allowed to remain a member of the College.

Merit Roll.

A daily account of the attendance, scholarship and conduct of every student is kept. The result, determining his place on the Merit Roll, is entered at the close of each term on the Records of the College. A report of the standing and demeanor of students will be sent to their parents or guardians when requested.

Public Worship.

Prayers are attended daily in the College Chapel. All students are required to attend public service on the Sabbath; in the morning at one of the churches in the village, and in the afternoon at the College Chapel.

Examinations.

At the close of each term, the classes are required to pass a written examination in the studies of the term. Students claiming to have pursued any part of our course of study, independent of our instructions, are required to be examined in the same manner on such studies in the presence of the Faculty. The result will depend on examination-credit combined with the standing for the term.

Degrees.

The Degree of Bachelor of Arts is conferred on all students who have completed the Classical Course, and sustained a satisfactory examination on every part thereof.

The Degree of Bachelor of Science is conferred on all students who give satisfactory evidence of the completion of the Scientific Course.

The Degree of Master of Arts is conferred on every Bachelor of Arts of three years standing, who, in the interval, has sustained a good moral character.

Applications should be made to the Secretary of the Faculty at least two weeks before Commencement.

Prizes.

The interest of a Prize Fund of \$500, founded by JOHN MOSHER, Esq., of Lima, will be given to the two members of the Senior Class who will write the best English Essays, on "The human life of Jesus Christ."

The SOCIETY Prize will be awarded for superiority in the writing and delivery of an English Oration. The contestants are to be selected by the members of the Aletheon and Atticæum, from the Sophomore and Junior Classes.

The interest of a Prize Fund of \$500, founded by JAMES R. WOOD, M. D., LL. D., of New York, will be given to two members of the Sophomore Class for superiority in Mathematics, to be determined by special examination.

The PRESIDENT'S Prizes will be awarded for superiority in Elocution. The contestants are to be chosen from the Freshman Class, and are restricted to selections from Forensic, Parliamentary and Sacred Oratory, to the exclusion of the drama. No selection will be allowed, which has been used in any one of the three preceding prize contests.

The President's First Prize was awarded last year to JAMES E. CRISFIELD.

The Second Prize was awarded to CHARLES W. MONROE.

The Decker First Prize, furnished by David Decker, Esq., was awarded to WILLIAM H. REESE, and the Second Prize to JOHN S. MORGAN.

The Wood First Prize was awarded to GEORGE MARTIN, and the Second Prize to HENRY O. HARRIS.

Libraries.

The libraries of the College and the Literary Societies contain an aggregate of about five thousand volumes, and additions are annually made.

Cabinets.

The Geological, and Mineralogical and Zoological Cabinets contain a valuable collection of rare and beautiful specimens, illustrative of the various departments of Natural Science. The friends of the College are invited to send to these Cabinets such specimens as may add to their completeness and value.

Apparatus.

The Chemical and Philosophical Apparatus is of the most approved construction, and together with the charts and diagrams, afford the means for a wide range of experimental illustrations. The laboratory is well supplied with the necessary chemicals and appliances, and has recently been enlarged; additions have also been made to the apparatus with special reference to the School of Agricultural Chemistry. There is a superior Telescope, a Transit Instrument, an Astronomical Clock, &c., for the department of Astronomy; and there are all the needful instruments for field exercise in Surveying.

Societies.

The Aletheon and Atticæum are Public Literary Societies, furnishing ample facilities to both sexes for improvement in composition, public speaking and parliamentary usage. Each Society has its room and library, and holds a public literary exercise each term in College Hall.

Students of the College are not allowed to be acting members of Literary Societies which are not connected with the College.

CALENDAR FOR 1870--71.

Fall Term commenced	Sept. 22.
Special Examinations,	Nov. 10-11.
Term Examinations will commence	Dec. 19.
Sophomore Exhibition and close of Term,	Dec. 21.

VACATION OF TWO WEEKS.

Winter Term will commence	Jan. 5.
Special Examinations,	Mar. 2-3.
Term Examinations will commence	Apr. 3.
Junior Exhibition and close of Term,	Apr. 5.

VACATION OF ONE WEEK.

Spring Term will commence	Apr. 13.
Special Examinations,	June 1-2.
Senior Examinations will commence	June 15.
Term Examinations will commence	July 3.
Examination of Candidates for Admission,	July 6-7.
Baccalaureate Sermon,	July 9.
Annual Meeting of Alumni,	July 12.
Annual Meeting of Trustees,	July 12.
Commencement,	July 13.

VACATION OF TEN WEEKS.

Examination of Candidates for Admission,	Sept. 19-20.
Fall Term will commence	Sept. 21.
